Coronavirus. When an Epidemic Spreads, So Do Rumors The biggest thing our institutions could do to stop the spread of COVID-19 misinformation would be to spread less misinformation themselves.

When an Epidemic Spreads, So Do Rumors - Reason.com

The epidemic in Monrovia finally began to subside in September, and today only about twenty new cases a day are being reported throughout Liberia. But over 2,800 Liberians have died from the disease, more than twice as many as in larger Sierra Leone and Guinea, and over six thousand have been infected, ten times more than in any previous Ebola epidemic.

An Epidemic of Rumors How Stories Shape Our Perception of ...

An Epidemic of Rumors begins with a meticulous timeline of the public health sector's, the media's, and (to a lesser extent) the medical research community's responses to SARS as they unfolded between April and July of 2003. Lee relies heavily on media sources to construct the timeline, a strategy that illuminates some processes more than others.
