The store is easily accessible via any web browser or Android device, but you'll need to create a Google Play account and register a credit card before you can download anything. Your card won't be charged, but you might find it off-putting.

### Angry Birds Project Answers 3

Blue Bird Work Yellow Bird Yellow Bird's flight path can be modeled by the quadratic equation:  $y = -x^2 + 14x - 24$  Max: 25 yards Axis of symmetry: 7 yards Distance traveled: 10 yards Since the graph is given you just need to square the axis of symmetry (13) to get 169. Then you need to

### Math Angry Birds Project by Viole Baker - Prezi

In this project students will graph quadratic functions based on the popular game, Angry Birds, by using equations and a Web-based graphing tool. Students will work in groups to apply the same principles to create their own game that uses quadratic functions. Students will exchange games with other groups, play the game and assess that game using a set student rating scale.

### Angry Birds Math Project Answers 3rd Edition

Do not have them make catapults for the Angry Birds Parabola Project. This will take entirely too much time on things unrelated to the standards you are supposed to be teaching. If this is the version of the project you want to do then partner with a shop class or art class where creating the catapult will meet a standard for that teacher.
