Babel 17 Samuel R Delany

Babel-17 is a 1966 science fiction novel by American writer Samuel R. Delany in which the Sapir-Whorf hypothesis (that language influences thought and perception) plays an important part. It was joint winner of the Nebula Award for Best Novel in 1967 (with Flowers for Algernon) and was also nominated for the Hugo Award for Best Novel in 1967.

Babel-17 - Wikipedia

Babel-17 is all about the power of language. Humanity, which has spread throughout the universe, is involved in a war with the Invaders, who have been covertly assassinating officials and sabotaging spaceships. The only clues humanity has to go on are strange alien messages that have been intercepted in space.

Babel-17 by Samuel R. Delany - Goodreads

Samuel R Delany's Babel-17 is a dense, sci fi classic from the mid 1960's. Humanity in the future has expanded into space finding a populated and sometimes hostile alien presence. While under attack, the military intercepts what appears to be a coded message, but cryptographers are unable to crack it.

Samuel R. Delany (Author of Babel-17) - Goodreads

Since the invasion, Earth has endured famine, plague, and cannibalism—but its greatest catastrophe will be Babel-17. Sabotage threatens to undermine the war effort, and the military calls in Rydra. Random attacks lay waste to warships, weapons factories, and munitions dumps, and all are tied together by strings of sound, broadcast over the radio before and after each accident.

Babel-17 book by Samuel R. Delany - ThriftBooks

Ace Books first published Babel-17 by Samuel R. Delany in the United States in 1966, when the writer was 24 years old. By my count he had already published six previous novels. (Dare I bore readers of this review with the obvious declaration that is standard of any retrospective assessment of Delany’s work; that he was a true SF prodigy?)

Babel-17 by Samuel R. Delany - SFFWorld

Babel-17 is quite short, more of a novella than a novel. It tries hard at establishing a good background for the story, but one mostly gets a flavor for the world rather than a real understanding, and some of the background props are rather undeveloped. There just isn't room.
