BUILDING AND DETAILING SCALE MODEL AIRCRAFT

The detailing process is my favorite step in building a plastic model airplane. This is the time when you will add all those little details that will make your model airplane stand out and look realistic. Be careful not to overdo it, stay as close as possible to the way the plane looks in real life. Use pictures of the real airplane as a reference. Study the pictures very carefully. Look at ...

So for a model to appear "large" and thereby more realistic, the sharp and deep shadows must be enhanced in some way. Technically a wash is an application of very thin paint that is allowed to flow into panel lines, joins, and corners. A wash in the cockpit of a model aircraft will make every detail look more heavy and real. Washes can also ...
