OpenLibrary is a not for profit and an open source website that allows to get access to obsolete books from the internet archive and even get information on nearly any book that has been written. It is sort of a Wikipedia that will at least provide you with references related to the book you are looking for like, where you can get the book online or offline, even if it doesn't store itself. Therefore, if you know a book that's not listed you can simply add the information on the site.

Eadly Arn

Arn wishes to become a monk, but before being able to take the eternal vows of poverty, chastity and obedience (q.v. Evangelical counsels) he must witness the outside world. Arn gets involved in the deadly politics of the realm, both with his own family's local feuds and the blood-feud between the two royal families competing for the throne.
