If you are reading a book, \$domain Group is probably behind it. We are Experience and services to get more books into the hands of more readers.

Frequent Cycling With Chronotherm Iii

Chronotherm III Thermostat. It's the smart thermostat that: Keeps you comfortable by automatically calculating exactly when the furnace or air conditioning should go on to have the house at the desired comfort temperature by the time you wake up. Saves the maximum amount of energy and money by remembering to automatically set back the heat

69-0690 - Chronotherm III

The blower now stops, but the heating cycles are shorter and slightly more frequent. I wonder if the temperature differential settings on the Chronotherm III are too sensitive? It starts the furnace within fractions of a degree Celcius, and cycles about 10 times per hour (at -20C outside).

Electric furnace blower runs 'forever' | Canadian TV ...

The Honeywell Chronotherm III allows you to program the temperature for specific days and specific times. If you have custom programmed your Honeywell to fit your schedule, but your schedule has changed, consider resetting the programmed options and adapting them to your new schedule. You cannot globally reset the functions, so you will need to reset each setting manually.

How to Reset a Honeywell Chronotherm III | Hunker

You may have a Honeywell Chronotherm thermostat that has 2 cycling settings: 6 cycles per hour and 3 cycles per hour. I downloaded installation instructions from Honeywell's website and discovered how to set it to 3 cycles per hour. 10 min on and 10 off.
